18   MR. BYRAM: You can judge from my reactions

19 that I am violently pro Yucca and that I regard anybody

20 who isn't either a fool, a liar, or a thief. And that

21 can be well-documented. okay. This is the first time

22 I've been here in 15 or so years. A gold bug said he

23 hung some papers out and I was in the mining business

24 and came along with him. He was arrested for something

25 else he did.

0078

1   So I ran into a schoolteacher and she said

2 that she taught retards in high school. Well, that

3 kind of shook me up. I said, that's kind of an

4 oxymoron. No, she said, Pahrump is kind of a, the

5 retard capital of Nevada. People who come to this

6 state with retarded children, they find that they have

7 a favorable program here, so they tend to gravitate

8 here. So now, I'm going to address my remarks to the

9 retard capital of Nevada, Pahrump. I hope --

10   MODERATOR BROWN: Sir --

11   MR. BYRAM: I hope people don't take offense,

12 but this community has changed considerably in 15

13 years. Okay.

14   Now, let's take a look at our State

15   Government. Our State Government is an unsavory

16   coterie of mommy banks. They're taking money, the

17   dirty air lobby, they're pimping, they're lying to

18   people. They're coming up with all these excuses.

19   Now, the visibility of this nation was

20   determined at Appomattox in 1865, April 8th, and you

21   can't go beyond that. So where do these loonies get

22   off saying we're going to turn down an act of the

23   United States Congress? We got the commerce clause.

24   We got this equal protection of the law. We got full

25   faith and credit. The people of this country for 15

0079

1   years have spent their money. They've got $10 billion

2   and they are damn well entitled to get their deposit

3   for their money.

4   Now, we know this nuclear waste is bad.

5   There is no question about that. Osama Bin Laden knows

6   that. Saddem Hussein knows that. This stuff is

7   scattered all over the country.

8   Now, we talk about terrorism. Up until 1900,

9   there hadn't been but single-digit terrorism. That's

10   less than 10 Americans killed by foreigners. In 1914,

11 in Columbus, New Mexico, Pancho Villa killed 17

12 Americans. Now that was double digit. It wasn't until

13 1982 in Beirut that 265 American soldiers were killed.

14 That's triple digit. Okay, now, it's been almost nine

15 years before we got to quadruple digit.

16   Listen, 80 percent of the people around the

17 world hate Americans' guts. If I were one of them, I'd

18 hate Americans' guts, too. We're a megaterrorist

19 state. We do bad things all over the world. The

20 President the other day was bemoaning the fact that

21 people don't love us. Well, in World War II, we made

22 the Germans and the Japanese love us. We spent $2

23 billion of 1945 dollars in major slum clearance, each

24 country. We also accelerated the death of 6 million

25 elderly people in those countries.

0080

1   MODERATOR BROWN: You've got one minute left.

2   MR. BYRAM: So after the war, these

3 countries, they had a young working population and they

4 had new factories, they sprung ahead. So our

5 megaterrorism, in effect, did not affect them. And in

6 Baghdad, Cairo, they don't think that way. They think

7 with bombs dropped on their heads is bad and we think

552416

8   we're doing a great good for them. We're telling them

9   where to get off at. Well, let me tell you --

10   MODERATOR BROWN: If you can wrap your

11   remarks up, please?

12   MR. BYRAM: Okay, let me just tell you --

13   unless we get this stuff under ground, we're going to

14   have five-digit terrorism. That's as sure, that's an

15   inevitability.

16   Thank you.

17   Incidentally, I have an organization called

18   "Nevada For Yucca" and we're starting an organization

19   called "American Kids For Yucca." We're going to get

20   10 million signatures.

21   MODERATOR BROWN: No commercials, okay?

22   MR. BYRAM: Okay.
